**Subject:** Nafion By-Product 2  
**Attachments:** Nafion Byproduct 2 Briefing v2.docx

Good morning Wayne,

Neil just sent you an email regarding work that has been done on Nafion By-Product 2, a PFAS being found at relatively high levels in individuals living in the Cape Fear River Basin.

Based on the briefing Neil provided me last week, I prepared a brief summary which was sent to you, Kay, Andy Gillespie and Bruce Rodan last week Thursday. Based on an inquiry I made yesterday, Jennifer and Chris are also aware.

I have attached an updated copy of the briefing paper.
